However, as our professionalism and our reputation are extremely important to our success to date, it is more important that Associate Partners have the necessary sales and relationship management expertise to develop and sustain strong professional business relationships. Associate Partners will also need to demonstrate excellent people management and leadership skills, as well as exceptional business administration, management and customer service.

HOW TO PROCEED?

1

If you meet our criteria, we will invite you to an initial meeting during which we will explain the business in greater detail, discuss the figures, answer questions you may have and, if appropriate, discuss possible locations. We have a detailed, robust Franchisee Recruitment Process which we will inform you about at our 1st meeting.

2

We will ask you to sign a Non-Disclosure Document at this meeting and we will also share our Agreement and Business Planning Kit

3

After the meeting, you will need time to consider the opportunity, and complete your own Business Plan, review the figures with your professional advisors, talk to your family, and undertake market research.

Then we can meet again to review your Business Plan and also answer any queries that you might have.
